NOTE FOR: The Director ✓  
The Deputy Director  
Deputy Director for Administration

FROM: Dave Gries ✓ OCA  
SUBJECT: SSCI Personnel Report

After your 23 July testimony to SSCI on personnel, the Committee formed staff teams to gather data and write reports about personnel practices at each of the major NFIB agencies. The question of what kind of report is prepared and to whom it is addressed is crucial. We have suggested to senior SSCI staff on a number of occasions that since the due date for the report comes up after the 99th Congress has adjourned but before the 100th Congress meets, the report should be kept at the staff level. The suggestion has now been accepted. The letter of instruction from SSCI Members to their staff describes the report as a staff report to the Members. Thus, it will not have the status of a Committee report and probably will have little impact.
